PRESS RELEASE — NOVEMBER 12, 2021

## **Raymond Meeks sixth laureate of Immersion, a French-American Photography Commission by the Fondation d'entreprise Hermès**

**Raymond Meeks is the sixth laureate of Immersion, a French-American Photography Commission by the Fondation d'entreprise Hermès. This new edition of the Foundation's programme dedicated to contemporary photography has been organized with the International Center of Photography (ICP) in New York and the Fondation Henri Cartier-Bresson in Paris.**

Launched in 2014, **Immersion, a French-American Photography Commission by the Fondation d'entreprise Hermès** is an annual programme featuring residencies, exhibitions, and publications. On a yearly alternating basis, Immersion is open to a photographer based in the United States, who is mentored by an anglophone professional as they create a new photographic work in France, followed by a photographer based in France, who is mentored by a French professional as they create a new photographic work in the United States.

Growing out of a partnership with the Aperture Foundation (New York), the Immersion programme continues with the support of the **Fondation Henri Cartier-Bresson**, Paris, and a new partner, the **International Center of Photography (ICP)**, New York. At the end of their residency, each laureate benefits from an exhibition hosted by both of these two prestigious art institutions. The exhibitions are accompanied by a bilingual publication.

Each year, the chosen mentor for Immersion submits the portfolios of eight candidates to a jury of professionals drawn from across the programme's partner institutions. Following a preliminary selection, five photographers are each awarded a grant of €1,000 to develop a specific project for presentation to the jury. This year's jury met in Paris on November 12, 2021, during Paris Photo, to select a laureate on the merit of their proposed project. The Fondation d'entreprise Hermès will award the laureate a grant of €40,000 to carry out their residency and their project, and will also fund their exhibition at the Fondation Henri Cartier-Bresson and ICP, as well as the publication of the book that accompanies this exhibition.

The mentor for this sixth edition is **David Company**, Managing Director of Programs at ICP. **Raymond Meeks** will carry out his residency in France in 2022. The resulting work will be shown as part of an exhibition at ICP in September, 2023, joining that of the two previous laureates, Vasantha Yoganathan (France) and Gregory Halpern (United States), and will travel to Paris for a solo show at the Fondation Henri Cartier-Bresson in February, 2024. A bilingual publication dedicated to his work will be published to coincide with the exhibition at ICP.

The previous laureates of Immersion, a French-American Photography Commission by the Fondation d'entreprise Hermès are **Sylvain Couzinet-Jacques** (France) in 2015, **Alessandra Sanguinetti** (United States) in 2016, **Taysir Batniji** (France/Palestine) in 2017, **Gregory Halpern** (United States) in 2018, and **Vasanthha Yoganathan** (France) in 2019.
